Instructions:

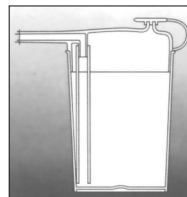

1. Fill the Novo Cup with liquid.

2. Fit the straw securely onto the short tube on the underside of the lid.

3. Make sure the valve on the lid is open and then place the lid on the cup. If the valve is closed liquid will spurt out of the cup. Press firmly down on the lid.

4. Close the valve on the top of the lid. After the first sip the cup will be spill proof.
