- Operation Temperature: 10-110° F (-12-43° C)
- Weather Resistance: Splash and moisture resistant (store indoors)
- Construction: Aircraft aluminum case with Lexan® face
- Remote Transmission: Full-function 900Mhz RF (300' range)
- Remote Dimensions: 4¾" x 3" x 1"
- Warranty: 2 years

COMPLETELY WIRELESS!

FEATURES/SPECIFICATIONS

Wireless Control: Highly reliable and responsive, the radio-controlled remote is easy to use and conveniently fits into a shirt pocket. A referee on the field can keep score as easily as a spectator on the sidelines. Running more than one SS-5000 in the vicinity? No problem! Each system has its own dedicated radio channel to prevent interference.

Outdoor AND Indoor Use: Designed for both outdoor and indoor use, the DayBright LED digits are readable from over 300 feet away, even in bright sunlight. The internal rechargeable battery provides a full day of use on a single charge. For extended operation, display brightness can be adjusted as needed.

Multi-Sport Timing & Scoring: Timing capabilities include countdown timer (ideal for football), count up timer (soccer), circuit interval timer (perfect for running practice drills), stopwatch (accurate to 1/100th second), and time-of-day clock. Scoring, period, start, stop, and reset functions are all available via the remote control. Operation is intuitive, so formal training is not required.

Loud Horn: After each period expires, the 106dB horn sounds automatically, piercing through background noise like a whistle. The sound is easily audible across a playing field or gymnasium. Horn volume can be adjusted or turned off if desired.

Mounting Options: Designed to accommodate several mounting preferences. The built-in prop rods help set up on the ground or other flat surface. For fence or wall mounting, the SS-5000 is equipped with hanging brackets. For a raised location, the optional tripod (TRI-5000K) elevates to seven feet with its easy "handle crank" design.

Model SS-5000

A multi-sport, portable scoring system for use both outdoors and indoors. Day-Bright LED digits are easy to read from anywhere on the field, even in direct sunlight. Wireless remote control is included.

As a multi-purpose coaching tool, capabilities include practice drill/circuit timer, precision stopwatch, countdown timer, elapsed time display, and time-of-day clock.

- **Totally wireless scoring system can be controlled from anywhere on the field – the radio remote control is included!**
- **Large day-bright LED digits**
- **Portable unit with internal, rechargeable batteries**

INCLUDED WITH THE SS-5000 SCORING SYSTEM

Wireless Remote: Control the board from anywhere on the field! Remote is easy to use and compact in size. Sealed keypad will resist damage caused by moisture.

- Each system has a dedicated radio channel
- 300' useable distance
- Powered by 9-Volt battery (included)

Sponsor Panel Ad: Ready for a customized message, the 24" x 18" coroplast panel mounts in various positions for best viewing, and securely snaps into place.

- Multi-position use, securely snaps in place and stays put
- Coroplast display for extended outdoor use
- Front-side attachment for bleachers, wall, table, tripod, fence, post mounting
- Back-side attachment for ground level

Folding Supports: Support legs lock in place when folded in or out for easy transport and compact storage. Carry like a thin suitcase.

Accessory Kit: Weather-resistant, zippered bag clips to back side of scoreboard and conveniently holds remote radio control and other accessories.

- 9" x 6" clip-on bag
- Instruction manual
- Hanging chains and 2 ground stakes
