

PowerWrap[®] KNEE BRACE

WITH THE EXCLUSIVE
POSITIVE TENSIONING SYSTEM

- Maximum support with a full range of motion.
- Four-way tensioning system provides a custom fit and excellent compression.
- Wraparound design is easy to wear and less bulky than hinged supports.
- Great for sports, home or anytime you need extra support.

Four-Way Tensioning System

Our unique, four-way tensioning system provides a custom fit for a multitude of knee problems, including strains, sprains, weakness and degeneration. It also can be used after an injury to take some of the strain off the joint while healing. Ideal for sports, work or home, this system provides maximum support to the patella and knee joint.

Effective Design

This patented design allows you to easily vary the tension, giving you the support you need. The

wraparound design makes it easy to apply and wear, even over clothing, while the open space behind the knee joint allows full range of motion with no binding or bunching. The wide, open popliteal design allows for better blood flow.

Comfortable Construction

The durable neoprene construction helps this support supplement the knee's muscles and ligaments. It provides comforting warmth and a reassuring feeling of knee strength.

(This support should not be used by anyone with phlebitis or any circulatory problems or disorders; it is not recommended to be worn while sleeping.)

Specifications

Packaging

- Clamshell with color insert

Package Dimensions

- 5.5" x 12.5" x 3.5"
(14 cm x 32 cm x 9 cm)

Sizes

- Regular (fits up to 22" thigh/17" calf — 56cm x 43cm)
- Husky (fits up to 27"/20" — 68/51cm)
- 8.5 ounces each
- Packaged 12 per Case - 12 lbs
- Product #6440

Color

- Blue and Black

Material Content

- Neoprene, Nylon, Polyester, Polypropylene

Patent #5,086,761
