DETECTO®

PC Series
Digital Price Computing Scales

LEGAL FOR TRADE

The PC Series is Detecto's most versatile, all-purpose price computing scale. Whether you require basic price-per-pound calculations or complete product labeling, the PC series will fill your needs. The 27 easy-to-use PLU (Price Look Up) keys provide instant recall of product prices for speedy calculation of total price and allow fast output to a printer.

- Easy-to-use price per pound feature with instant display of total price.
- Up to 99 product prices can be stored in memory for speedy recall along with product names when the optional label printer is used.
- Alpha keypad to name each product for printing on the labels.
- 27 preset keys - Simply place a product on the scale and press the product's pre-defined preset key to access stored data.
- Removable PLU key label chart for identifying your specific products on the keyboard.
- Assign shelf life for each product, providing "Packed On" and "Sell By" dates printed on the thermal label.

Featuring serial output for connectivity to a label printer

PC Series Price Computing Scales

The PC series is constructed of heavy steel guaranteeing top performance in the harshest environments. The stainless steel commodity tray is simple to remove and clean. The bright red LED display is readily viewable by the operator and customer on both sides of the scale. Take the guesswork out of pricing your products by utilizing the optional P-220 printer. The labels clearly show your store name, the product name, price per pound and the total price. Whether you require a basic price computing scale or the added power of labeling, Detecto's PC Series scales can handle the task.

These scales meet all requirements of Handbook 44, issued by the National Institute of Standards and Technology and has been issued the Certificate of Conformance number 88-028A3.
